

URBAN PROJECT

THIS INNOVATIVE ARCHITECTURAL DESIGN EXPLORES DYNAMIC INTERACTIONS BETWEEN VARYING BUILDING HEIGHTS AND STRATEGIC SETBACKS, CREATING A UNIQUE INTERPLAY OF VOLUMES AND SPACES. THESE THOUGHTFUL VARIATIONS IN HEIGHT AND FORM RESULT IN NATURALLY OCCURRING OPEN SPACES BETWEEN THE BUILDINGS, FOSTERING ORGANIC CONNECTIONS AMONG RESIDENTS. THE DESIGN ENCOURAGES COMMUNITY INTERACTION NOT ONLY BETWEEN INDIVIDUALS BUT ALSO WITH THE SURROUNDING FACILITIES AND URBAN ENVIRONMENT.

TO FURTHER ENHANCE THE INTEGRATION WITH THE NEIGHBORHOOD, THE GROUND FLOORS OF EACH UNIT ARE DEDICATED TO RETAIL SPACES THAT CATER TO THE DAILY NEEDS OF THE INHABITANTS. THESE SPACES ARE ENVISIONED TO HOST GROCERY STORES, CAFÉS, AND OTHER ESSENTIAL SERVICES, CREATING A SEAMLESS EXTENSION OF THE URBAN FABRIC INTO THE RESIDENTIAL AREAS.

THE PROJECT'S LAYOUT IS DESIGNED TO BLEND HARMONIOUSLY WITH ITS SURROUNDINGS, ENCOURAGING VIBRANT STREET LIFE AND FACILITATING EASY ACCESS TO LOCAL AMENITIES. BY PRIORITIZING MIXED-USE FUNCTIONALITY, THIS APPROACH ENSURES A BALANCED AND SUSTAINABLE URBAN LIVING EXPERIENCE, WHERE ARCHITECTURE ACTIVELY CONTRIBUTES TO A SENSE OF COMMUNITY AND CONNECTIVITY.
